In the space below, indicate your opinion about your teaching assistant's contribution to your learning in this course. Cover everything you consider relevant: section meetings, office hours, grading, consultations, etc. (The results of this question will be available to the Course Professor, the Directors of Undergraduate and Graduate Studies, and the Teaching Assistant.)

Jeremy was a great instructor for this course! Our supplementary PowerPoint sections were very helpful to reinforce the material in class early on in the semester, and Jeremy was responsive and helpful in the latter part of the semester as we were crafting our research papers. I'm appreciative of Jeremy's efforts and think he was essential to the course!

Very clear, makes time for students, goes above and beyond by giving advice about topics outside course content (econometrics, research practices, grad school)

In the space below, indicate specific ways you feel the Teaching Assistant could improve his/her effectiveness in this course. Be constructive. (The results of this question will be available ONLY to the Teaching Assistant.)

I think some sections could have been improved to be more relevant. For example, I think the section going over the midterm was less helpful as we could go through the answers on our own and would not be expected to know the exact details of the midterm content later in the course. Other than that, the sections were really helpful and great, and continuing to engage students in them would be helpful.
